

HOW TO ADD MULTIPLE PHOTOS TO INSTAGRAM STORY

Have you been wondering how to add multiple pictures to your Instagram story and create a beautiful collage? There are several ways you can achieve that. Let's see how together.

"SELECT"

Create Story.

Create Story by swiping right on your homepage. Later, click on the square button on the bottom left to open the photo gallery.

Select the photos.

Tap on "Select" on the top right. Then, select pictures you want to add to the story. You can select up to 10 photos.

Share separately.

Later, click "Next". You'll see two options; "Separate" and "Layout". Click "Separate".

Edit and share.

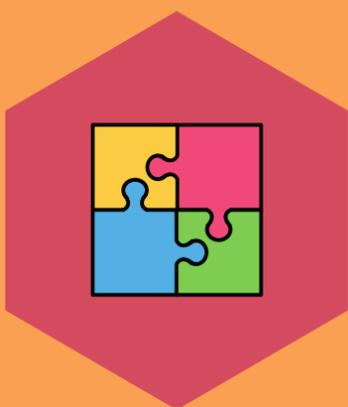

Edit each photo; add stickers, tag people, add filters, etc. Then you can share them at once.

"LAYOUT"

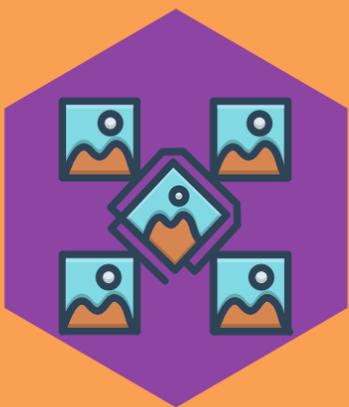

Select the photos.

The first way you can make a collage on Instagram story is by selecting how many photos you want to share on your story.

Tap "Layout".

After selecting the photos, you'll see two buttons; "Separate" and "Layout". Tap "Layout" and edit the photos.

Edit Layout and share.

Edit layout by clicking on the first button on top. You can add filters, stickers, or texts. Then, you can share the story.

"STICKERS"

Upload the photo.

Swipe right on Instagram and go to Story. Select the photo you want to upload and resize it.

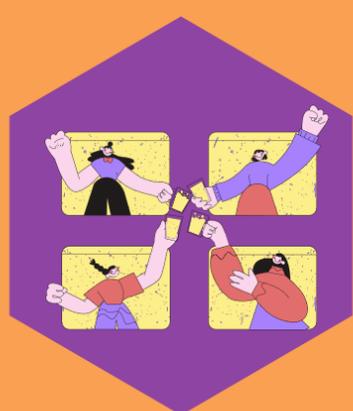

Click on "Stickers".

Then, tap on the "Stickers" icon on the top. Next to the camera icon, you'll see a multiple photos icon.

Choose the second photo.

This will open your photo gallery. Then, select the photo you want to add. Don't forget that you can't select more than one photo while using the stickers feature.

Share the collage.

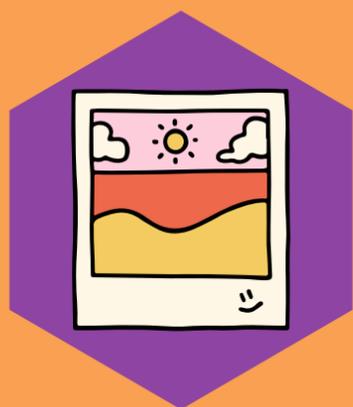

You can resize it and make it into shapes by clicking on the photo. After completing all the photos, click "Your Story" and share your collage with your friends on Instagram.

"IOS"

Copy the photo.

Go to your "Photos" app and copy the photo you want to add to your story.

Paste the photo.

Then, go to Instagram Story and create a new story. Select "Text" on the top right corner and click "Paste".

Share on your story.

Shape the photo and complete your Instagram story.
