STAGE
02

Using the Instagram comment filters, you may detect all of the terms in the comments that contain vulgarity, aggression, racism, or sexism.

You can prevent harmful material comments from appearing in your Instagram comments thanks to your filters.

Instagram is also open to developing comment filters based on the comments reported by users.

Instagram's comment filters detect and block several improper comments for you. However, if inappropriate remarks continue to appear, you can manually report the distressing comments to Instagram.
